House Bill 6285 (As Introduced)

Topic: Babysitting Facilities
Sponsor: Representative Meekhof
Co-sponsors: Representatives Amos and Hammon
Committee: House Regulatory Reform

Date Introduced: June 26, 2008

Date of Summary: August 13, 2008

The bill amends the Stille-DeRossett-Hale Single State Construction Code Act to permit local governments to enact ordinances requiring a window or other similar transparent viewing surface for viewing the occupants of the nursery or playroom and a restroom or toilet facility not more than 15 feet from an entrance or exit to the nursery or playroom. The local planning commission may allow a variance of the requirements. Ordinances are required to be submitted to the Bureau of Construction Codes for review 60 days before the ordinance takes effect. Approval by the Bureau is not required. "Babysitting facility" is defined as a school, church, fraternal organization, or other facility open to the public that provides babysitting or child care services without a license.
